We deeply regret to announce the death of Mr. Frederick Denbury, which took place yesterday at his residence in Calle Callao. The deceased gentleman had been in failing health for a long time; his death will leave a painful void in the large circle of friends who knew and highly esteemed him. The funeral takes place this morning at 10 o'clock.

The thunderstorm on Thursday morning left its mark on several places in town, the lightning having struck the big chimney of Blackett's brewery, the wall of Fattersall's Repository in Calle Rivadavia, the Comisaria next door to it, and several other places, but without doing much damage or killing anybody outright, though some few were slightly injured.

The preliminary surveys for extending the Andino Railway to San Luis are being urged forward; the engineer has advised the Minister of the Interior that 20 kilometers more have been levelled.

Dr. Lorentz, the eminent German savant, has arrived in town from Cordoba, to see after the publication of his report on the Rio Negro territory. It will be remembered that he accompanied the Expedition to the Desert last year.

The building for the new Mint is going ahead so fast that it will be finished and well aired before the money-making machinery arrives. The raising of the enclosure is now being put up.

The Colon Theatre opens to-night for masquerade balls. We cannot understand where the dancers and 'dancers' to keep all these places open come from.

The Chilean papers say there is a genuine Californian rush to the new gold diggings recently discovered at Tambillas, near Serena. A tattered beggar found the first nugget and sold it for a song to an enterprising grocer in the neighbourhood. This set the ball rolling.

The National Government has taken preliminary steps for a census of Patagonia, that hitherto 'terra incognita' which is gradually unfolding its charms and riches to the persevering workings of those intrepid explorers, Messrs. Moreno and Lista. The grand 'Censo Nacional' review at Palermo is now fixed for the 22nd inst. The community at large would feel ever so much less nervous if these volunteers would retire into private life for good. The public want a general disarmament.

A Russian Prince has recently described the Nihilist movement in his country as arising from irritation caused by 'a want of iron in the blood of the Muscovite race, and irregular action of their livers.' If so, Holman's Pad is the cure for all the political ills of Holy Russia.

The inhabitants of Mercedes, B.O., have respectfully petitioned their police authorities to be allowed to drench each other in the skin with water during Carnival. They say there is no grit in 'pomitos' and it is pure waste of time playing with them. Nice, quiet people these Mercedesians!

The *Heraldo* says that the Government has ordered a 'sumario' against three officials in the Public Lands Office, in connection with the scandals recently revealed by the *Prisma*.

The bathing season at Montevideo is already on the wane, and 'distinguished foreigners' are turning homewards. The families of the President of the Republic, Mr. Carrasque, (the banker), Mr. Benberg and others came up in the steamer Jupiter on Thursday. Six thousand people bathe every day at Pocitos, to the strains of a military band. The ladies' 'toilettes de bain' are something wonderful.

General Roa is now sojourning with his family in his estancia at Jesu Maria.

Professor Rajneri, 'on dit,' is about to open the Variedades Theatre with a crack French Company. To succeed will require to be somewhat 'cracker' than many of its predecessors, though some of them have been undoubtedly good.

The light-ship on the Chiofo Bank is now in a state of such utter dilapidation that the men in charge of her refuse to stay on board. It is fully a year ago since we first called the attention of the Capitania to this serious matter.

The Municipal dog-butcherers are going too far. In Calle Sarandí on Friday, while lassoing a dog, they lassoed a little boy of eight years who refused to give up his pet, and dragged him off the footway, the child's skull being fractured in the fall. The men of the neighbourhood turned out with a cry of indignation, and but for the arrival of the police the ruffians would have been lynched on the spot. The same fellows beat a woman badly because she refused to give up her dog. The *Patria Argentina* openly advises the people to shoot down these fellows if they attempt to enter their houses, and says that in San Telmo there is already a body of artizans armed and fully determined to take its advice. It is, we should think, about time for the Civic Fathers to turn their attention to this scandalous business before worse comes of it.

The papers again give currency reports of intended revolutionary movements in Paraguay and Entre Rios, but we believe they are utterly without foundation. Lopez Jordan has settled down as a wheat grower at Palma, Banda Oriental.

The *Trihuna* says that the Bazaar at Flores beats the great Bazaar last year at the Opera House hollow. Well done Village of the Plain!

Another distinguished visitor is expected in the Plate soon—Mr. Henri Say, nephew of Leon Say the great French financier. Mr. Say is making a tour of the world in his yacht, the *Henriette*.

We can find nothing new in the Rosario papers to hand yesterday except that the Panama is rising with unpleasant rapidity, and that Governor Ayroza's family have come down to Buenos Ayres for Carnival.

President Avellaneda sent his compliments by telegram on Wednesday to Mrs. Urquiza, congratulating the widow of general Urquiza on the anniversary of Caseros.

Mr. Crawlwell, the well known druggist, has cried 'pomos' and let slip the dogs of law on some fraudulent imitators of the articles he sells in that line, and which are amongst the best manufactured.

The Rural Society is now drawing up a Register of all the estancieros in the province, and respectfully calls on these gentlemen to send in their names, partido, extent of camp, distance from nearest railway station, or cattle, etc. The object of the Society is to facilitate business in land, cattle and sheep, and we need hardly remind estancieros that it is their interest to respond to the call, as it costs them nothing but a sheet of note paper.

Carlotta Patti, the Marchioness de Canx's sister, who was here ten years ago, is now engaged in an action for libel against a San Luis paper which was so atrociously negligent as to say that she was 'as drunk as an owl' while on the stage. Carlotta's defence is that she was indisposed on the occasion in question.

The police reports refer to a delicate business where a creditor presented 'a little bill' at the office of a newspaper whose recent demise left a great many dry eyes in the Editorial Bus. A man behind the counter paid the bill with a crack of a stick on the skull, and by way of receipt the police walked the wounded creditor off to prison. This is an old Buenos Ayrean way of paying new debts, but hardly a just one.

Except in the way of a few yards of extra gas piping, there is nothing in the way of preparation for Carnival to be seen in Calles Florida and Victoria. It is whistled that the Chief of Police will not issue the usual edict about water-drawing. We hope Colonel Garmentida will think better of this, as there are some few people who still pay respect to police regulations. If so, Holman's Pad is the cure for all the political ills of Holy Russia.

The inhabitants of Mercedes, B.O., have respectfully petitioned their police authorities to be allowed to drench each other in the skin with water during Carnival. They say there is no grit in 'pomitos' and it is pure waste of time playing with them. Nice, quiet people these Mercedesians!

The increase of fever at Rio has led to another spasmodic start in official quarters about the new lazaretto. Engineers are going to-day to Ensenada to look at a new site proposed in that quarter.

The leaders of our French colleague the *Courrier* are always good. 'Political Homeopathy' in yesterday's issue is splendid. Mrs. Avellaneda and Tejedor are depicted as rural homeopathic political practitioners, one of whom, despairing of his case, summoned Surgeon Sarmiento to a consultation, but, unfortunately, refused to follow the sound and vigorous course recommended by that eminent operator, viz. first to use the scalpel to cut out the root of the tumour from which the body political is suffering, and then to give the patient a course of purgatives and cooling medicine.

We hear that the number of new estancias started about Bahia Blanca lately is something quite astonishing. For leagues about there new establishments are now seen; and within the last two months 17,000 sheep and 2000 cows have been driven from Chascomus partido alone to the new settlements.

The 15th inst will be the last day for applying for space at the Rural Society's Cattle Show, to come off next month.

We dropped a silent tear yesterday on perceiving that a Milan paper confirms the death of Stagno the tenor. Our native colleagues have our deepest sympathies for this bitter bereavement.

CRICKET.

B. A. C. C. v. B. A. Z. C. C.

This match was played at Palermo on the 2nd February last and resulted in favour of Senior Club. The day was everything that could be wished for. The B. A. C. C., winning the toss, commenced batting; the first two wickets fell for 6 runs, but Penrose and Sweetland kept the fielders alive, the score being 64 when Sweetland was well bowled by H. Stockdale. J. Menzies then followed and also hit freely for 36, when he was well caught by Mackerell and Mather. The total score being 175. The bowling and fielding of H. Stockdale and Mackerell were very good. After lunch the Z. C. C. sent to the wicket G. Stearn and Mackerell who scored 17 before they

were separated, after which the wicket fell rapidly, the total score only reaching 54. According to custom they followed their innings, the result of which the subjoined score will show—

The break in the market which began yesterday was more pronounced today. Pataconas opened at 31.50 and closed at 31.40, and very little sell. 84's for the end of March at 31.60. Total sales of the day 677,370. It is a very long time now since we have had such fluctuations in gold, and business at the ring at once shows the appearance of briskness. The Bank statement out this morning, it is thought, had a great effect on the market. If the National Government pays up the amortization of the bank, then a further tightening of the paper money must ensue. The position of the paper money appears to be each day strengthening, and whilst gold discounts rate say at 6, paper money is hard to find at 10.

Cedulas have again advanced, and were done cash at 821. People talk of 82 to-morrow. Treasury notes were done at 761, and National Bank shares at 80.

It was said on 'Change' that limits to buy salted hides were reduced by telegram to-day, and that the European markets are weak, and will advance from at the coming auction at London, some 200,000 hides will be offered.

The death of Mr. Frederick Denbury, the well known real estate and money broker, was announced on 'Change.' The funeral takes place to-morrow at 10.30 a.m. Deceased some three years ago was the most prominent real estate broker in this market, and did a very large business. In later years he has been in poor health; he was much respected by all who knew him.

Exchange rates for the Pollinist mail, and the exchange wing of the Italian Bank was crowded all day with 'takers of small drafts.' The market rates were 41-50 on London, 6.24 Paris, 6.20 Antwerp, and a fair premium. Bills on Montevideo at 111 premium.

Two large tanned hides from the Uruguay were hung up in the Bolas to-day for the specific purpose of showing how hides are destroyed in this country by moths and worms, marking. On the half of one of these hides we counted 18 marks, and on the other nearly as many. Of course the hides are so completely deluged as to be worthless. We think we have here a real and so much needed. The exhibition of these hides is likely to cause much good, and open the eyes of estancieros and others to the present ruinous system.

Freights in as firm as ever, and spite of the war of steam clearing and loading, there is no scarcity of hales, and abundance of cargo offering.

The following are the names of the gentlemen forming the new board of the Bolas called the Camara Sindical:—
President—Don Emilio Fernandez
Treasurer—Don Ramon Artagaveytia
Secretary—Don Francisco Pomales
Vocales—Messrs Manuel Correa Moria, Enrique Grigg, Antonio Devoto, Juan Zimarnan, Leoncio Bucha, Federico Sassenberg.
Commission of Brokers—
President—Don Juan Manuel Pedrial
Vocales—Messrs Tomas J. Jorge, Ricardo Gowland, Federico Jacob, Julio Arras, Benjamin Garcia, Aquiles Perelle.
The Provincial Bank balance-sheet for the month of January was out this morning; the figures are very important at the moment, as they explain to a certain extent the great stringency of our paper money; the balance-sheet will be found at foot.

This being bank day the board met. The applications for discounts were very large, and the bank, adhering to its fixed rule, gave, as usual, only about 5 millions. The result is that the demand for paper money is so strong, discount rates in the open market are running up to 10 per cent, and perhaps soon 12; and some well known discounters who have already made money have advanced their rates within the last few days.

Don Lyandoro Billingshurst's auction of the Gorostiza sheep is one of the most important of our advertised sales. As it does not come off before the March sample time is given to see the sheep, although their wool is so well known in this market, that it is really unnecessary to look over the flocks. Many parties are at the moment looking for good sheep to make a start. Before March herbage begins; they will find no better opportunity than this sale advertised by Mr. Lyandoro Billingshurst.

The saladero fauna in the rivers is much more active this year than last, the killing up to end of January 1879 against 86,000 last year and 106,000 in 1877. We find, however, that in the year 1878 the killing was even more active than the present and reached the large figure of 207,000. The killing in this time up to date is behind the three previous years, which is explained by the long drought and very poor condition of cattle. We have killed in B. Aires up to 29th Jan. 148,000 for 1879, and 14,000 for 1878, and 318,000 for 1877. Montevideo this year has, however, pulled up well, the killing being—59,000 for 1880, 41,500 for 1879, 70,000 for 1878, and 15,000 for 1877. The killing in Buenos Aires for 1879, and 15,000 for 1877. It is probable, however, that the River Plate fauna this year will exceed all others.

Advices received to-day from Tucuman are very favorable, and say that the herbage of that province this year will reach 10,000 acres, and in other adjoining provinces will also be equally large. This bears us out in our own cry that the sugar and the wine crop of this Republic will soon rise to very large dimensions. All we want in this country is more hands and less politics.

Yesterday the funerals of two well-known men of Buenos Aires were largely attended. Don Casan and Don Federico Ferrero, both men in former years very representative. We note that of late many of the old representative men of Buenos Aires are passing from amongst us.

The Nat. Government has very properly come to the aid of the iron trade of Buenos Aires, and established a low rate of freight for the iron ore from those mines, which will be a great help to the enterprise. The day we have our own iron in this country, Arg. Bonds may be met at least 10 per cent higher in London.

The Forrester comet showed a diminished tail on Thursday night; the tramway to Flores brought out hundreds from town to see if it were possible to catch a glimpse of the comet over the horizon, but so far nothing, but the tail could be seen, and so clear that it seemed to be increasing in brilliancy. The comet's head's passengers say that they saw the comet from the time they crossed the line, that may be, but the first person in B. Aires to see it was Don Mateo Forrester, our esteemed Bank Director and merchant.

Up to closing hour of Bolas nothing was known about the Avellaneda conference; the impression is, however, that it will amount to nothing.

In our telegraph column will be found the latest news from the European markets. No fresh telegrams have come from Scheldt, but it is supposed that communication is still interrupted.

The Provincial Bank took all the exchange offered at its own rate, 5.30 and 501. The Bank will take more to-morrow; in another telegram we are to be told that the Bank will take more to-morrow.

The gold withdrawn from the Bank of England on 6th January comes to the River Plate Bank 250,000 stg.

The market rates as strong as ever, and several lots from Liverpool at 14 good rates. Great complaints made at the high charges of the river steamers on live stock; formerly only 6 pats, charged to Fray Bentos, now they charge 16 pats, which of course stops every thing.

Mr. E. Casey, who has arrived back from Rojas, was welcomed on 'Change'; he reports the cam's out there looking splendid.

The Mortgage Bank balance-sheet for last month was out to-day and will be found at foot; the figures are important.

Messrs Pyralis & Bradley sell to-day the following wools:—

At the South Market the arrivals by rail and cart to-day were 15,000 ar wool, 240 fan maize in cob, and other produce.

The rain interfered with business at the South market to-day; nevertheless there was a full business going on at the deposits, and over 40,000 ar wool, 600 salted hides, shipped by Roth & Co., Terras and Bancalari.

Steamer General Nazar 300 hales wool to Buenos Aires.

German bark Havelg arrived to load hales for Antwerp for Roth & Co. and Terras.

Following information communication respecting the Island of Leon in the Patagonian Coast will be read with much interest since it entirely disproves the claims of a Frenchman to the ownership of said Island and which claims are at present being urged before the Argentine Government by the French Minister Count D'Amelot:—

Sheepskins—420 down camp at 28-23 rls, desechos at 20-14 rls.

Pelotas—Guanaco 75-30 rls, Pelotas 825

Corderitos—29-20, 101-12 al barrer.

Ovis Hides—630 camp and maderos by various at 180, 200, 210, Becoras at 165.

Nوعات at 25, 101, 102, 120

Horse Hides—127 camp at 36-40.

Nutria—12,500 lbs. at 101-11, 12

Hair—62 ar. from South at 14-10 to 162.

Wool—6 bales for export at 48. 16 bales made at 50. 2 casks and in panna at 40-42

Wheat—170 fan. from Costa at 210, 180.

Maize—210 fan. mormo, in cob, at 88, 79.

Prices for wool were firm 5-15 in the North Market. The wool is also very steady.

It was said that the maize crop is the largest ever known in this country, and heavy exportation is expected.

According to the telegrams received at the State Telegraph Office yesterday from the Eastern Argentine Railway extension. It is to be hoped there will be no further delay in this matter, as the Cuyo extension is a work of the most urgent necessity.

The Governor of Entre Rios has applied to the National Government for payment of ten thousand pataconas, the amount voted by Congress for the exportation of the lands for the Eastern Argentine Railway extension. It is to be hoped there will be no further delay in this matter, as the Cuyo extension is a work of the most urgent necessity.

It was rumored on 'Change' to-day that very favorable advices had been received from London respecting the port of Ensenada, that a very rich railway contractor has taken the matter up, and that docks and deposits at Ensenada will be to be constructed at Ensenada, that the railway is to be at once extended to Magdalena, and a branch line to run from Ensenada to Alta Mirana to bring the bales from the South to the Ensenada docks for shipment. The names given are some of the richest and most influential, and the enterprise in such hands cannot fail to prove a brilliant success. The proposed works would interfere with nothing save the Punta Lara, and would meet the wants of the growing trade of that part of the South. We have no doubt whatever that if the Ensenada Railway people put their shoulders to the wheel, they could easily secure the Montevideo passenger traffic, just the same as the Campana Railway has secured the Rosario passenger traffic.

Another very important, much talked of subject on 'Change' is the continuance of the City Improvement Works, and Messrs Telles and Co., who have had much favorable offers for the contract, will, we hear, make a money deposit in the Prov. Bank to guarantee same. The members of this new contracting firm are some of the richest and most influential in the city. Still it is right to remark that there is some objection in the market to continuing these works on local, i.e. paper money capital, the belief amongst merchants being that paper dollars cannot finish these works, and if they are to be resumed, the money to pay for same must come from abroad, as it would be fatal to the currency to embark in such works on paper money only. We entirely coincide in these views and consider that if Messrs Telles and Co. are to get the contract it must be on the clear and explicit understanding that the contractors bring into the country fresh gold to pay for the works, and we apprehend from the very responsible members of the contracting firm that there would be no difficulty whatever in their bringing from abroad whatever fresh gold capital would be necessary.

A fleet of steamers will leave to-morrow for Europe, and all filled with cargo. The *Grand*, *Basil*, *Temer*, *Sai America*, and *Norfolk*. Our European readers may judge of the trade of Buenos Aires by looking over the cargoes taken by those splendid steamers.

We note in the *Times* of 6th January that several steam
